

## HC Charteris Property Fund

### Fund's Strategy

The aim is to provide long term income and capital growth from investment in a diversified portfolio of property related investments including listed securities, residential/commercial construction and Real Estate Investment Trusts (REITs). There are no geographical restrictions in respect of chosen investments.

### Investment Process

The Fund Managers combine top down thematic strategy with bottom up stock selection. Technical analysis is used extensively to aid market timing. The Fund invests broadly across a range of securities targeted for value, growth potential and income, providing exposure to liquid UK, European and Global Real Estate Companies and Securities.

### Fund Manager's Comments

The UK Property market endured a sell-off after a short gain in the beginning of the month which resulted in the HC Charteris Property Fund initially outperforming both of the indices briefly due to its higher volatility, however, the following sell-off had the equal effect on the downside. The fund currently has a higher than typical cash allocation to take advantage of falling share prices which will be invested in during more favourable market conditions. The fund is showing a higher than average yield (over 4%).
