

HC Charteris Property Fund

Fund's Strategy

The aim is to provide long term income and capital growth from investment in a diversified portfolio of property related investments including listed securities, residential/commercial construction and Real Estate Investment Trusts (REITs). There are no geographical restrictions in respect of chosen investments.

Investment Process

The Fund Managers combine top down thematic strategy with bottom up stock selection. Technical analysis is used extensively to aid market timing. The Fund invests broadly across a range of securities targeted for value, growth potential and income, providing exposure to liquid UK, European and Global Real Estate Companies and Securities.

Fund Manager's Comments

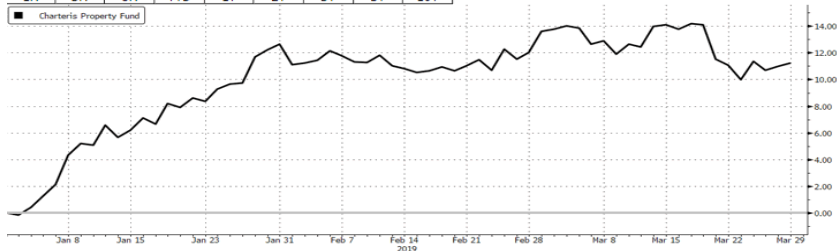

Shares in top-flight UK house builders have had a turbulent calendar year as falling house prices and rising building-cost inflation have hit margins and caused heavy movements of volatility.

Brexit continues to cast a shadow of uncertainty on the sector and will continue to do so until a deal is agreed. Despite this, the fund went up 11.22% for the first quarter. There are no plans in place to significantly change the underlying holdings or geographical weightings.
