

# HC Charteris Gold and Precious Metals Fund

## Investment Strategy

The Fund will primarily invest in instruments with direct underlying gold and/or precious metals exposure and shares in companies world-wide whose core business is involved in the mining, refining, production and marketing of gold and/or precious metals. Investment may be undertaken indirectly in other commodities and minerals.

## Investment Process

The majority of the *HC Charteris Gold and Precious Metals Fund* will be invested directly in "blue chip" gold and precious metal mining companies with market capitalisation in excess of \$500m. Circa 25% will be mid-cap/smaller gold mining companies with a market capitalisation below \$500m. A large proportion of the investments will be in US, UK, Canadian and Australian companies.

## Fund Manager's Comments

The fund went up +52.19% on a total return basis & +51.96% on a price change basis for calendar year 2019. The Gold and the Precious Metals markets had a rally in Q4 of 2018 and that momentum has carried throughout calendar year 2019. There was significant movement in the precious metal miners during last two quarters as the gold price ended the year above \$1,500 USD & the Silver price ended comfortably above \$17 USD which the mining equities inside the portfolio responded to very positively.
